Trilingual American University student seeking an internship role in Software Engineering to gain experience before graduating in Spring 2022. Recently completed Google IT Support Professional Certificate and created a full MERN website using JavaScript. Curious and excited to learn new and develop existing skills in IT.

## EDUCATION

### Temple University (Japan)

Expected Graduation: Spring 2022

Major: Economics, Minor: Computer Science

Current GPA: 3.87

Certificate Program: Fundamentals of Programming

### Google IT Support Professional Certificate (received on April 26, 2021)

Eight-month IT support program, developed by Google, that covers troubleshooting, customer service, networking, operating systems, system administration, and security.

## TECHINICAL PROFICIENCIES

**Professional level of Python programming language:** Capable of creating anything from small GUI applications to sophisticated Flask, HTML, Bootstrap and SQLite related programs/website applications

**Fluent in:** HTML, CSS, JavaScript, Node.js, React.js, MongoDB, EJS

**Proficient in:** Java, C, MySQL, SQL

## PROJECTS

### MERN Full-Stack E-Commerce store/website (<https://mernstoremn.herokuapp.com/>)

With the instructor's support, I learned the fundamentals of MERN architecture. As a result, with the knowledge I received, I created a website that mimics an online store that you may encounter daily (i.e., Amazon, eBay).

### Python Flask blog/website (<https://maxnes-blog.herokuapp.com/>)

During my 3-month marathon to learn Python every day, I created a blog site that has social media functionality where I can post new blogs and share my thoughts with my audience.

## ADDITIONAL SKILLS

**Language:** Native Russian, business English and intermediate Japanese

**Leadership:** Captain of Temple University Cycling Club

I organized and led numerous bike rides around Tokyo and beyond with 10 or more people throughout my student life at Temple University Japan Campus.

## WORK EXPERIENCE
